OF EMERGENCY SERVICES

SITUATION SUMMARY

BART Service Delay, Contra Costa County

- On 03/16/16 at 1735 hours, the California State Warning Center (CSWC) received a report from the State Threat Assessment Center (STAC) advising that an electrical surge caused damage to 50 BART train cars on the tracks between Pittsburg and Concord in Contra Costa County. It could be months before a full fleet of trains is up and running
- BART still has a complete shutdown of service remaining between the North Concord and Bay Point stations. BART officials advised that riders should be prepared to continue taking a bus bridge between the Pittsburg-Bay Point and Concord stations at least through Monday morning
- BART has issued an Advisory on its website, stating that a 10-minute delay can be expected on the Pittsburg/Bay Point Line in the Pittsburg / Bay Point and SFO directions. Riders will still be able to board a BART train at the North Concord Station if traveling towards Oakland and San Francisco.
- A bus bridge has been established for riders traveling between the Pittsburg/Bay Point and North Concord-Martinez stations. Concord BART station has 14 buses that will bridge service while BART works on equipment problems between Pittsburg and Concord.
- BART isolated the problem to a portion of track along Highway 4, just east of the Willow Pass exit on the upslope entering the Pittsburg Hills. When the cars passed over this stretch of track, instead of delivering 1,000 volts of electricity, for an unknown reason the third rail was producing as much as 2,000 volts, according to a senior BART official. The track troubles do not pose any safety concerns for passengers.
- On Friday, BART reports that they were able to muster only 516 cars for service, 63 less than its goal of 579 trains to offer regular service for growing ridership
- Service on other lines in the system will also be affected because there will be fewer cars in service. BART urges passengers to check the their website before going to the impacted train stations at www.bart.gov/alerts
- The Cal OES Coastal Region and CSWC are monitoring the situation.

SITUATION SUMMARY

HWY 3 Roadway Damage, Trinity County

- On 3/15/2016 Trinity County Proclaimed a local emergency and activated their EOC to Level 1 due to a washout of 1000' of Highway 3.
- A detour is available between Weaverville and Trinity Center using East Side/Trinity Mountain Road; but trucks and RVs are not allowed due to tight curves. Large vehicles will need to access Trinity Center via Highway 3 from the North.
- Highway 3 over Scotts Pass is open, residents can leave the Coffee Creek and Trinity Center areas via Highway 3 to Yreka for supplies. Currently, the only route to take Coffee Creek and Trinity Center residents in 2 wheel drives to Weaverville is a 140 mile detour north on Highway 3 to Yreka, south on I-5 into Redding, and west on Highway 299.
- Highway 3 is expected to remain closed at the slide until Memorial Day weekend.
- Scotts Mountain Pass and East Side Trinity Mountain Road will be plowed starting tomorrow and throughout the storm.
- There are no requests for assistance at this time as all needs are being met. Caltrans, Trinity, Shasta Counties and contractors are working to alleviate transportation issues.
- National Weather Service are providing spot weather reports. More rain is predicted this weekend.

Health and Medical

- Basic Life Support EMS is available from the local Fire Department.
- A four wheel drive ambulance, which could meet an ALS ambulance if need be, is at the Slate Creek detour.
- Air Ambulances are available in good weather.

Missions

- **2016-IREOC-21960**, Transportation EF-1. One snow blower to clear Trinity Mountain Road from Hwy 299 in Shasta County to Hwy 3 in Trinity County. Agency tasked: Caltrans. **Mission closed.**

Baker to Vegas Cup Relay, San Bernardino County

- Cal OES Auxiliary Communications Service (ACS) deployed in support of the Baker to Vegas Challenge Cup Race where Cal OES ACS will be assisting San Bernardino County by providing OASIS and Communications at two locations in support of the Medical Base operations.
- OASIS will link the Doctors and EMS providers to the base hospital located in the Inland Empire.

Cal OES Mission Tasking

- **2016-SREOC-21067**: Cal OES communications support scheduled for March 18-20, 2016.

SITUATION SUMMARY

Weather of Concern

Northern California

- There is currently no weather of concern for Northern California
- Wet weather expected to return for Sunday through Tuesday. Mostly light to moderate rain in the Valley expected with snow in the Sierra and Lassen National Park areas.

Southern California

- There is currently no weather of concern for Southern California

Cal EOC Incident – 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

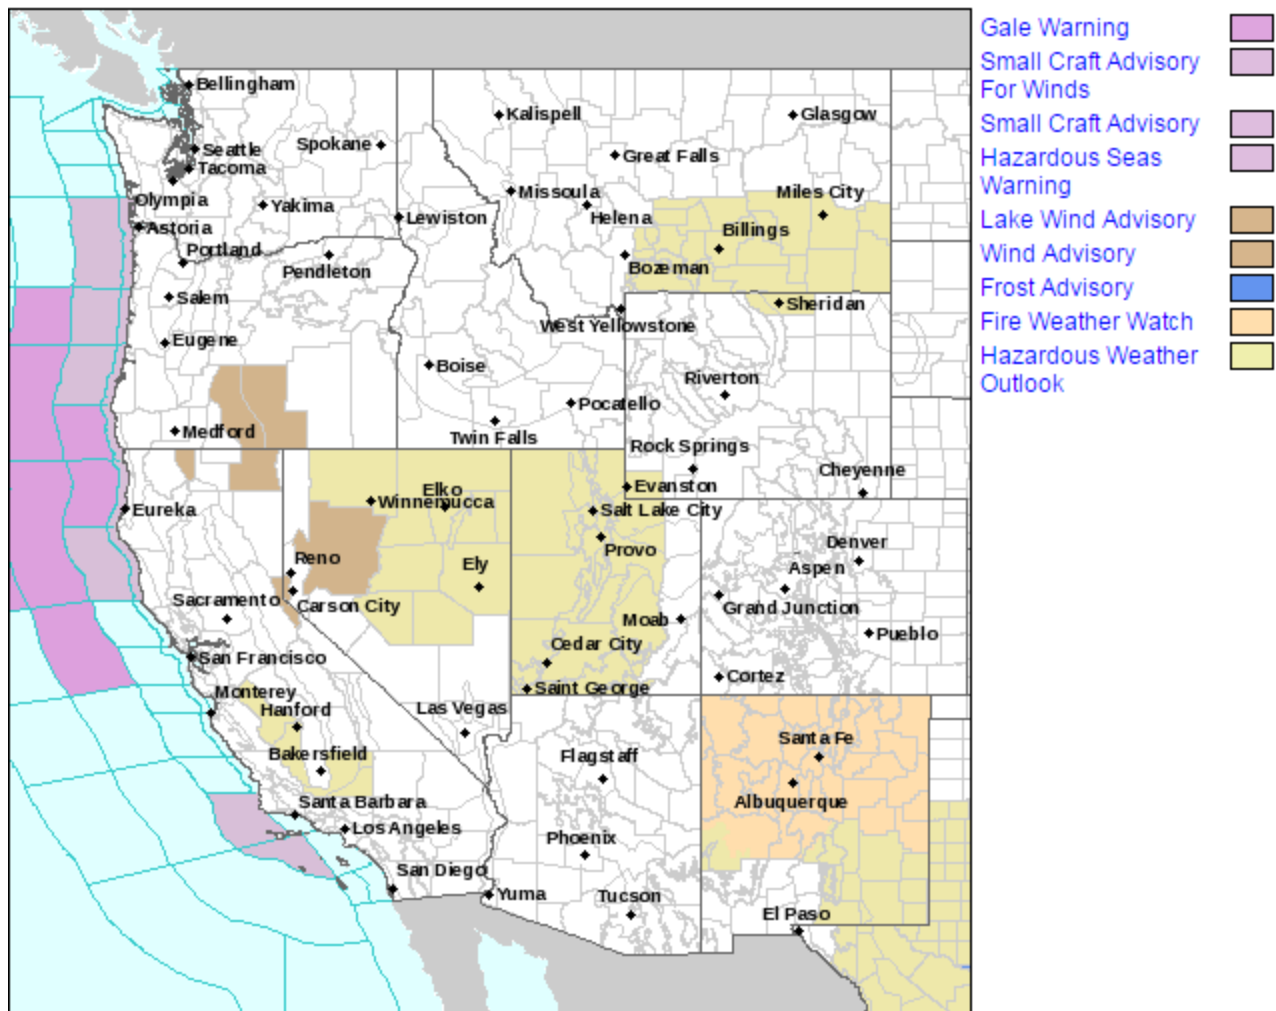

A front will move through Northern California on Sunday bringing widespread rain and locally gusty winds. Wet and unsettled weather will continue on Monday as another front moves onshore. Cooler air and high elevation snowfall will follow Monday night and Tuesday. A series of cold fronts will bring additional periods of rain to the North Coast from today through Tuesday. After sporadic very light rain today, heavier rain is expected Sunday morning and early Monday, with scattered on-and-off showers in between and through the day Tuesday. A few thunderstorms will be possible near the coast Sunday afternoon through Tuesday as well, and snow levels will fall to around 3500 feet overnight Monday and early Tuesday. While rivers will certainly rise with this rain, flooding is not anticipated.

SOUTHERN CALIFORNIA

Increasing onshore flow will support continued coastal to valley morning clouds through Monday. Low pressure passing well to the north may support showers Monday into Tuesday, mainly north of Santa Barbara. Periods of offshore winds and an approaching high pressure aloft will likely support fair skies and warmer conditions for the remainder of the week. An upper level ridge will linger through tonight. A broad upper level trough over the eastern Pacific is forecast to move into mainly central and Northern California on Sunday with the upper ridge flattening out over Southern California. A broad southwest flow aloft will prevail Sunday night and Monday as another upper trough approaches from the eastern Pacific. The upper trough will move Monday night along with a surface cold front later Monday night into early Tuesday. The upper trough will move east of the area on Tuesday with a broad northwest flow aloft and a broad northwest to north flow at lower levels.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
